About the Minnesota Office of Higher Education

The Minnesota Office of Higher Education is a cabinet-level state agency providing students with financial aid programs and information to help them gain access to postsecondary education. The agency serves as the state's clearinghouse for data, research and analysis on postsecondary enrollment, financial aid, finance and trends.

The Minnesota State Grant Program, which is administered by the agency, is a need-based tuition assistance program for Minnesota students. The agency oversees tuition reciprocity programs, a student loan program, Minnesota's 529 College Savings Program, licensing and an early awareness outreach initiative for youth. Through collaboration with systems and institutions, the agency assists in the development of the state's education technology infrastructure and shared library resources.

OFFICE OF
HIGHER
EDUCATION

reach higher

Introduction

Fall enrollment at Minnesota's colleges, universities and career schools increased 5.3 percent over 2008, according to preliminary fall headcount figures reported to the Minnesota Office of Higher Education. Most of the growth is attributed to the state's community and technical colleges and private career schools in 2009. Fall headcount enrollment for undergraduates and graduate students was reported at 372,108.

About the Data

The fall census of enrolled students at Minnesota postsecondary institutions appears in this report. Enrollments are grouped by individual institution, institution type, and whether the institution is located inside or outside the Twin Cities metropolitan area. Preliminary fall census data are included only for institutions eligible to participate in a state-funded student financial aid program (the Minnesota State Grant program or SELF Loan program) administered by the Office of Higher Education. This includes all publicly-funded higher education institutions and many non-profit and for-profit institutions.

For each institution, preliminary enrollment from fall 2009 is compared with previously reported preliminary enrollments from fall 2005 to fall 2008. Data may vary from previously published reports due to corrections made after the publication date. Data received after these tables are prepared will appear in next year's report.

Preliminary census data may differ from data that appear in the Basic Data Series published by the Office of Higher Education or other reports based on student characteristics. Census data received for this report may, in some cases, differ from data received for the student enrollment record data base due to the following reasons:

- Data for the student enrollment data base may not have been provided in time for this report, but a preliminary headcount is obtained verbally to fill in the spreadsheet. The verbal number may be an early estimate only.
- The Minnesota State Colleges and Universities provide end-of-term data for the student enrollment data base, but an early fall census is used in this report.

More detailed data on the characteristics of students enrolled in fall 2009 will be posted on the Office of Higher Education's Web site in mid-2010.

Table 1. Preliminary Headcount Enrollment Summaries by Type of Postsecondary Institution, Fall 2005 to Fall 2009

+ Institutions that are closed.

(1) Fall 2009 headcount not available at time of publication. Fall 2008 data used as a proxy.

n/a: institution no longer participates in state-funded financial aid program and is not required to submit enrollment data

Data may have been updated from previously published reports.

Preliminary data may differ from data appearing in the *Basic Data Series*, or other data based on student characteristics. Preliminary data are sometimes based on a verbal census. Data appearing elsewhere are derived from the Office of Higher Education's student enrollment database. In some cases, data received for the database differs from the census data in this report.

Definitions

Institution Type

The Minnesota Office of Higher Education groups postsecondary institutions into the following six types for enrollment reporting.

State Universities comprises seven state comprehensive universities.

Community and Technical Colleges comprises 30 campuses providing certificate, diploma and associate degree programs.

University of Minnesota comprises five campuses. The Twin Cities campus is the state's land-grant research university, offering bachelor's degrees, professional education, and graduate education through the doctorate. The Duluth campus offers a comprehensive undergraduate and graduate curriculum. The Morris campus offers an undergraduate liberal arts curriculum. The Crookston campus focuses on career and technology based undergraduate programs. Enrollment data for the Rochester campus are reported with the Twin Cities campus.

Private Colleges and Universities are predominately not-for-profit four-year liberal arts or religious institutions. In addition to undergraduate education, some private colleges offer professional education and graduate degree programs in certain fields.

degrees. While institutions in this group offer mostly programs that can be completed in two years or less, some institutions offer limited career specific bachelor's degree, and/or graduate programs in addition to their shorter programs.

Private Graduate Schools may be not-for-profit or for-profit and offer predominately programs at the master's degree level or graduate professional programs.

Metro and non-metro indicates location of the institution, not the residential origin of the students.

Metro includes institutions located in the seven county Minneapolis-St. Paul metropolitan area (Anoka, Carver, Dakota, Hennepin, Ramsey, Scott, and Washington).

Non-metro includes institutions located outside the seven county Minneapolis-St. Paul metropolitan area.
